### **Transitional Foster Homes**

Transitional family home services are intensive, short-term, community based treatment services provided in a family home setting for youth with emotional and behavioral challenges. These homes provide a normative, community-based environment with therapeutic parental supervision, home structure and support for youth capable of demonstrating growth in such a setting. This setting provides a supportive platform for family therapy and treatment to occur with the goal of reuniting youth with their family. Weekly sessions with our contracted therapists; 24/7 Crisis Support; Respite services available at the discretion of program director. We also offer Ancillary Services (1:1) as an additional support with approval from treatment team. Services provided in Leeward Oahu and East Hawaii Districts.

### **Respite Services**

The service provides structured relief to youth, and their biological families. This will prevent disruptions in their regular living arrangement.

### **Ancillary Services**

This service provides 1:1 service to youths currently placed in our Transitional Foster Homes. Services provide supports for youths that will help to improve functioning in his/her home/community and/or prevent the likelihood of movement into a higher level of care.

### **Therapeutic Crisis Home (Oahu Only)**

Provides short-term crisis stabilization interventions in a safe, structured setting for youth with urgent/emergent mental health needs.

### **Intensive In-Home Services**

Services are used to preserve, and stabilize the youth, family in their current environment. This service will also prevent the youth from being placed outside of the home. This is a time limited focused approach that incorporates family and youth centered treatment. Services offered in Leeward Oahu and East Hawaii Districts.

### **Intensive Independent Living Services**

A comprehensive treatment service provided to youth and young adults who need to work intensively on developing a range of skills to prepare for independent living. Youths live in their home setting while participating in his/her service. Service outcomes focus on maximizing the youth or young adult's ability to manage their illness and their lives with as little professional intervention as possible. Services offered in Leeward Oahu and East Hawaii.
